

Attorney Docket No. 45112-089
Application No. 09/604,082

4. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a contact pesticidal composition comprising:

rosemary oil;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

7. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
piperonyl butoxide;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

11. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
one or more conventional pesticides;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

13. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
sesame oil;

Attorney Docket No. 45112-089
Application No. 09/604,082

soybean oil;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

15. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
sesame oil;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

17. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
soybean oil;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

19. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
peppermint oil;
eugenol;
phenethyl propionate; and
an acceptable carrier;

Attorney Docket No. 45112-089
Application No. 09/604,082

wherein controlling comprises knocking down and killing the household pests.

21. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
peppermint oil;
eugenol;
phenethyl propionate;
methyl salicylate; and
an acceptable carrier;

wherein controlling comprises knocking down and killing the household pests.

23. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
peppermint oil;
eugenol;
phenethyl propionate;
menthyl salicylate; and
an acceptable carrier;

wherein controlling comprises knocking down and killing the household pests.

25. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
peppermint oil;
eugenol;
phenethyl propionate; and
ISOPAR M;

wherein controlling comprises knocking down and killing the household pests.

Attorney Docket No. 45112-089
Application No. 09/604,082

27. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
peppermint oil;
menthyl salicylate;
soybean oil; and
an acceptable carrier;

wherein controlling comprises knocking down and killing the household pests.

29. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
peppermint oil;
soybean oil; and
an acceptable carrier;

wherein controlling comprises knocking down and killing the household pests.

31. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
soybean oil; and
an acceptable carrier;

wherein controlling comprises knocking down and killing the household pests.

33. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
peppermint oil;
L-menthyl iso-valerate; and
an acceptable carrier;

wherein controlling comprises knocking down and killing the household pests.

Attorney Docket No. 45112-089
Application No. 09/604,082

35. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
peppermint oil;
soybean oil;
L-menthyl iso-valerate; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

37. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
peppermint oil;
benzyl alcohol;
soybean oil; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

39. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
peppermint oil;
soybean oil;
sesame oil; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

41. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;

Attorney Docket No. 45112-089
Application No. 09/604,082

peppermint oil;
sesame oil; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

43. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
soybean oil;
sesame oil;
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

45. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
peppermint oil;
benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

46. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:

rosemary oil;
sesame oil;
one or more compounds, selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

Attorney Docket No. 45112-089
Application No. 09/604,082

47. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
soybean oil;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

48. A method for controlling household pests, comprising applying to a location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
piperonyl butoxide;
soybean oil;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.

49. A method for controlling household pests, comprising applying to the location where control is desired a pesticidally-effective amount of a pesticidal composition comprising:
rosemary oil;
sesame oil;
soybean oil;
one or more compounds selected from the group consisting of eugenol, phenethyl propionate, peppermint oil and benzyl alcohol; and
an acceptable carrier;
wherein controlling comprises knocking down and killing the household pests.
